

ISO-CUTS

Thermogenic Whey Protein Isolate

- Teavigo® Green Tea • 8-way Metabolic Support
- Ultra Low Fat • Gluten Free

Potent Thermogenic formula for targeted results.

Active levels of Green Tea, natural Caffeine and Hydroxycitric acid blended with ultra-low fat Whey Protein Isolate for maximum fat burning results. Lipotropic amino acids support metabolic processes for optimal weight management.

TEAVIGO® Green Tea: This scientifically researched ingredient is a concentrated source of the catechin EGCG for enhanced metabolism and fat oxidation. TEAVIGO® provides the best of Green Tea in its purest form. Green Tea works synergistically with Caffeine and L-Carnitine for optimal fat burning. TEAVIGO® also provides antioxidant activity in the removal of free radicals.

Garcinia Cambogia (Hydroxycitric Acid): HCA has a powerful 3 phase action on weight management. 1). Reduces the storage of excess carbohydrates as bodyfat by inhibiting the ATP-citrate lyase enzyme, 2). Suppress appetite by increasing the body's production & reserves of glycogen, 3). Alleviates fatigue by diverting carbs to glycogen for energy production.

Green Coffee Extract (Caffeine): Provides a natural source of caffeine which works synergistically with Green Tea to help increase fat burning and energy expenditure. Caffeine can help improve energy levels for more intense workout performance leading to greater calorie burning.

L-Carnitine: Carnitine plays a critical role in energy production; without it fat burning can't occur! Carnitine transports long-chain fatty acids into the mitochondria (muscle cell's "power plants") so they can be oxidised ("burned") to produce energy. Carnitine may also spare glycogen levels during exercise allowing for better endurance.

Flavours: Choco-Latte and Vanilla-Latte

Available In:
1.25kg & 3kg Pails

TEAVIGO® is a trademark of DSM

Choline & Inositol: Lipotropic agents which work synergistically in the transport and metabolism of fats which help reduce the accumulation of fat in the liver. Choline also assists in the retention of L-Carnitine in the body.

Chromium: Is an essential micro-mineral that is essential for proper carbohydrate metabolism. It helps improve glucose utilisation and may help to reduce appetite, particularly sugar and carbohydrate cravings. ISO-CUTS uses chromium polynicotinate, the safest and best absorbed form of chromium.

Vitamins & Minerals: 12 essential vitamins plus iron and zinc for general health support.

100% Great Taste ~ Ultra Low Fat ~ No Aspartame

NUTRITION INFORMATION

Servings per Container: 31 (1.25kg) 75 (3kg)	Qty per 40g serve	Qty per 100g
