

AMINO CHARGED WPI

Amino Acid Enhanced Formula

- **Advanced Amino Recovery Technology • WPI plus Whey Peptides**
- **Added Glutamine & Arginine • Stabiliser Free for Rapid Absorption**

The Most Delicious "Whey" to Boost Protein Nutrition.

With 35g of high quality whey protein per 40g serve, Amino Charged WPI is the most delicious "whey" to boost protein nutrition and recharge your system every day. Whey Protein Isolate boosted with natural Whey Peptides and super-charged with the maximum legal amounts of L-Glutamine and L-Arginine.

Whey Protein Isolate (WPI) Highest protein (94% by dry weight basis), lowest fat and less than 1% carbohydrates and sugars (lactose). WPI is naturally high in bioactive peptides for muscle tissue synthesis and immunoglobulin proteins for immune system support. This nutrient packed protein contains the highest concentration (24-25%) of Branch Chain Amino Acids (BCAAs), especially leucine, of any protein source.

Whey Peptides: Di and tri peptides from carefully hydrolysed whey protein isolate for ultra rapid absorption. Whey peptides start the muscle building process by stimulating the liver to produce anabolic growth factors that stimulate muscle growth and enhance muscle recovery.

Natural Fermented L-Glutamine: Produced from rice without the use of chemicals so there are no toxic residues; only pure, clean L-Glutamine for recovery and immune function.

Free Form L-Glutamine and L-Arginine: Added to the naturally occurring Glutamine and Arginine in Whey Protein Isolate to boost their levels closer to those found in other types of protein, providing an even stronger amino acid profile. L-Glutamine & Arginine are 'critical cluster' Amino Acids which help spare muscle during periods of low energy intake/dieting.

Flavours Chocolate, Vanilla, Banana, Cookies & Cream, Strawberry and Turkish Delight

Available In: 1.25kg & 3kg Pails

3kg Multi Flavour Pack (Chocolate, Vanilla & Banana)

No Fillers or Stabilisers: Nothing diluting this pure protein, just high quality protein and amino acids available for your body to digest at the fastest possible rate. Why pay for whey protein isolate and then slow its quick absorption with vegetable gums, thickeners and fillers?

Easily Digested: NO vegetable gums or soy proteins, so it won't leave you feeling bloated.

No Gluten: NO cheap glutamine peptides derived from hydrolysed wheat or low quality wheat proteins making it suitable for coeliacs and people with wheat allergies.

Easy Mixing: Just add water and shake. Amino Charged WPI mixes quickly and easily into a light, delicious shake without the need for a blender.

100% Great Taste ~ Ultra Low Fat ~ No Aspartame

NUTRITION INFORMATION
